

January 9, 2012
FOR IMMEDIATE RELEASE

Hope Homes Inc. is pleased to announce an exciting new residential program for college students. Hope Homes Collegiate will offer residences, structured programming and recovery support for college students in Atlanta, GA.

The collegiate division of Hope Homes will be overseen by new staff additions Kelly Moselle, MS, as Program Director, and Michael Shannon, CIT, as Resident Manager/Counselor. Beth Fisher, Hope Homes Founder and Executive Director states, “We are absolutely thrilled to have Kelly and Michael on our team to lead this new program and community. Kelly has expansive knowledge and experience in the Higher Education arena, and his expertise regarding recovery services for the college student is state of the art, having directed a comparable program for the last three years. Michael Shannon has partnered with Kelly during that time and the two are a formidable team, providing unmatched support, structure and services for the recovering student and his family. We are very fortunate to have the two under the Hope Homes umbrella”.

Hope Homes Collegiate will be a separate entity in the Hope Homes network of communities. Residents will be assisted in enrolling in college classes, and provided highly structured and comprehensive life skill support services, tailored to the young adult college student for the goal of incorporating recovery into college life.

Hope Homes, Inc. is a leader in the recovery residence industry, known for providing high quality, structured recovery residences in Atlanta, GA, and Charlotte, NC. Operating since 1996, we are a long term residential program designed to bridge the gap from early recovery to independent living. Our aim is to bring lasting recovery to a wide demographic range of individuals in a residential, community setting. We strive to provide the highest caliber of rehabilitative service to the newly recovering adult man or woman by providing:

- Safe residences in a comfortable home setting,
- Professional staff to provide holistic life skill development and support, and
- An environment where collaborative community networking is emphasized.

Our hope is to teach and empower the recovering individual to internalize healthy living skills that can be utilized over the course of a lifetime.
